# SPACE CLEARING PROFESSIONAL CERTIFICATE PROGRAM

---

2023

Thank you for your interest in the Space Clearing Certification Program offered by the Conscious Design Institute and Renae Jensen, FSII

Space Clearing/Harmonizing is a vital part of maintaining healthy space, and has been part of our human culture and practice for thousands of years. Home Blessings, Spring Cleaning, New Years ceremonies, Spirit Cleansing.. we are familiar rituals associated with cleansing space. As we work to maintain a healthy body, mind and spirit, we must allow our homes to have a cleanse, refresh and reset it's energy and intentions. We can apply new paint, beautiful furnishings and feng shui techniques, but it is like " putting clean clothes on a dirty body". Our homes matrix, energy fields, history, trauma, and more are a level of congestion that can shifted.

I grew up with these techniques with a Greek/Italian background and have been blessed to have studied and trained for many years in the field. My professional field of Conscious Design and Real Estate has brought me hundreds of clients - with issues ranging from illness, negative luck, houses that refuse to sell, romance problems, children out of sorts. Space Clearing has been a vital part of the process, and I have seen the value of it.

That is why the Conscious Design Institute has created an extensive and integral certification program in Space Clearing. Personal Space Clearing is essential and valuable in our own homes and spaces. The Space Clearing training prepares you to shift, cleanse, balance and harmonize for others professionally. Our classes are taught by myself and invited guest instructors to share their knowledge, experience and wisdom with us. We offer lots of practice, on-site, personal, remote and map clearing.

You will join our elite team of Conscious Design Space Clearing Professionals, get a professional listing with the Institute and have a private facebook group to share experiences, ask advice and team up on special projects. You will be required to read and sign the Conscious Design Institute student ethics and promise.

### **Testimonials:**

In the Spring of 2016, I had the privilege of becoming a Certified Space Clearing Professional through **Renae Jensen** of the **Conscious Design Institute**.

This extremely sensitive work was taught by one of the finest, and most experienced teachers I have had the honor of working with... **Renae Jensen** has designed a comprehensive, all- inclusive curriculum, encompassing the many modalities used in cleansing, harmonizing, and rebalancing space.

Each lesson, addressing the many facets that are experienced, was presented in word and in type for our reference. Demonstrations, as well as active participation, were utilized in creating a firm respect, and understanding. Specialized Practitioners also accompanied Renae during some of the sessions, providing us a full palette to use in our own work.

I highly recommend this fascinating course, and I'm so very grateful for the knowledge attained. It will be an invaluable piece in your toolbox, pulled to use in every avenue of life.

**Phyllis Alise McGeehan** "THOUGH THE EYES OF THE SOL"

Class was amazing. You put so much love and beauty in the details.

I am so grateful.

Dona H.
